# Lesson: Practice 3
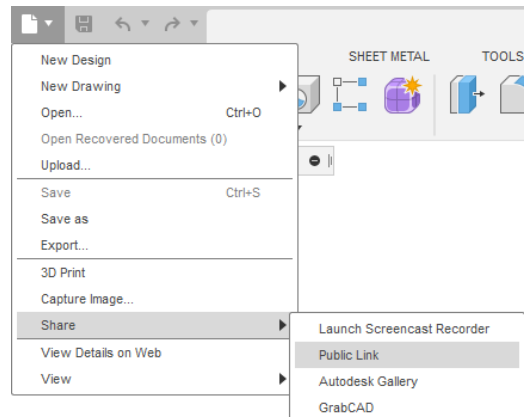

Practice: Share and manage a design link.

- Create a public link.
- Modify public link properties.
- Invite a user to collaborate.
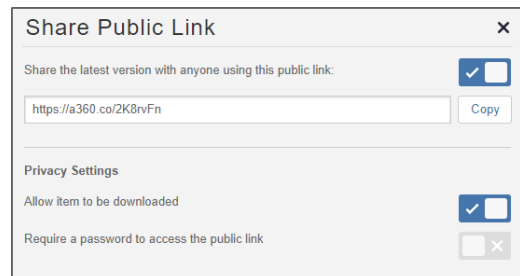

1. Continue with the file "Building Blocks – PE".	
2. Select File > Share > Public Link.	
3. Activate the public link and allow item to be downloaded.	
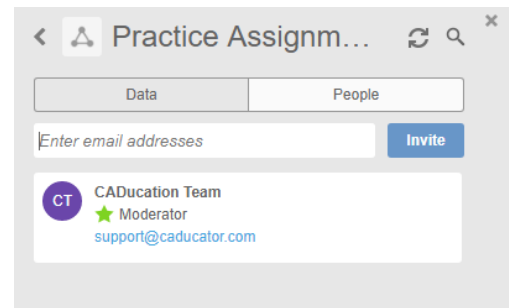

4. From the Data Panel invite a user to collaborate on a project.	
5. After inviting you can now remove a user from a project.
